Routine Notes.

[To be used ~~only for notes, requisitions, etc., not intended for permanent record.~~]

I wish the file had come up to me before going to the Secretary. The question of raising the Allowance for Chemicals to Rs. 25 has in consequence been lost sight of.

DCS 20/1/21.

Sub-

Mr Diary Sheet a note on 17.1.21 asst asst Secy. I told it only to asst Secy. Perhaps after waiting by the daily the file may perhaps have been already delivered @ the Rev. Secy's room.

GBS 21

9 Orders are also required on another point raised by the Senior Surgeon, namely about raising the allowance for cost of Chemicals for practical work from Rs. 5 to Rs. 25 per mensem. When the sum was originally sanctioned three years ago, it was understood that it was meant for the lecturer to recoup the chemicals of the Bangalore High School Laboratory used by him for conducting experiments. The increase is said to be required to enable each student to do the experiments himself. But it is not clear why the allowance should be paid to the Chemistry Lecturer when the chemicals required are utilised from the High School Laboratory. Instead of spending Rs. 300 per year on this account every year, it would be desirable to provide a separate Laboratory for the Medical School itself.

DCS 21/1/21.

Rev. Secy.)

10 Further information on this point viz as to ~~whether~~ the cost of chemicals whether the lecturer for his classes uses it or the Subordinate from the High school may be depended on and raised hereafter if necessary.

N.B.—Should routine notes be written on small slips, the notes must be copied, or slips pasted on this form.

Draft please DCS 24/1/21.

Jud 27-20-11

From

Dr. H. B. Hylvaganam, F.R.C.S.(Eng).
Rao Bahadur T.V. Arumugum Mudaliar, Esq., M.B.,C.M.,
Offg. Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of
H. H. the Maharaja of Mysore,
Revenue Department, Bangalore.

Sir,

I have the honour to forward herewith, a copy of letter No.90 of the 4th September 1920, from the Principal, Medical School, Bangalore, proposing to increase the allowance of the Science Lecturer of the School from Rs.25/- to Rs.75/-per mensem and to state that Chemistry being quite as important a subject and its teaching (which includes both theoretial and practical instruction) as difficult as any other included in the course of studies, there is every reason to fix the allowance at Rs.75/- to prevent discontent and preserve efficiency. The lectures have to be delivered daily instead of 3 times weekly, as it is found impossible to cover the whole syllabus at the present rate of lecturing. This would involve extra labor. The Inspector General of Education who had been consulted in the matter (copy enclosed) has given his approval. I therefore request early sanction to the proposal to raise the allowance of the Science Lecturer from Rs.25/- to Rs.75/- and the allowance for chemicals etc., from Rs.5/- to Rs.25/- per mensem, the extra cost during the current year being met from the provision made under in the Medical School Budget.

I have the honour to be,
Sir,
Your most obedient servant,

Offg. Senior Surgeon.
(absent on tour)

SSR-BVA.

From

The Senior Surgeon,

Mysore Govt., Bangalore.

No. G. C. 732-10

Encls. 2

Subject.

Recommending the allowance of the Science Lecturer from Rs 25/- to Rs 75/- and the allowance for chemicals etc, from Rs 5/- to Rs 25/- per mensem

Letter No.90 dated 4th Sep.1920, from the Principal, Medical School, Bangalore, to the Senior Surgeon, Mysore Govt., Bangalore.

@@@@@@@@@@@@@@@@

At a recent meeting of the Medl.School Council, held at the Victoria Hospital, it was pointed out that the Chemistry and Physics lecturer was not able to get through his subjects thoroughly within the nine months at his disposal, lecturing at the rate of thrice a week. He is unable to cover the whole ground set forth in the Calender. It is therefore necessary that he should lecture 5 times a week between 7-30 and 9 a.m.

2. Further it is necessary that the students should do some practical work in Chemistry, otherwise, this subject will be of no practical use to them. Mr. C.S.Ananthapadmanabha Iyer, suggests that for an extra sum of Rs.25/- (we are already paying him Rs.5/-) per month, he will be able to make arrangements with the High School Laboratory, to hold practical classes in Chemistry. The total sum of Rs.30/- is intended to cover the cost of chemicals. The present amount of Rs.5/- sanctioned in G.O.No.2755-7-Med.59-17-2 dated the 17th Nov.1916 is intended for demonstration purposes only; but the students are not able to do experiments themselves which is very essential.

3. Mr. Ananthapadmanabha Iyer, is only paid a pittance of Rs. 25/- per mensem for his work, which is ridiculously too small. But the other lecturers are paid Rs.75/- per mensem for three lectures a week. It is only fair that he should be paid the same sum and get him to lecture 5 times a week. He already feels the invidious distinction shown to him. If we want him to take an interest in his work, we should do him justice by paying him at least what we pay others as these are hard times.

4. I beg therefore to request that you will be pleased to recommend to Government that Mr. Ananthapadmanabha Iyer be paid Rs.75/- p.m.for 5 lectures a week and for an extra sum of Rs.25/ to meet the cost of chemicals for practical work.

The

with reference to your

letter no. C-732-10 dt. 31st Dec. 20

regarding sanction for raising

allowance of the Senior Lecturer

in the medical school from Rs.

250 to Rs. 275 the allowance

for chemicals from Rs. 5 to

Rs. 25. I am directed to request

you to kindly furnish the

over.

following information:—

(1) The Principal, Medical School, recommends an increase in the allowance for chemicals from Rs 5 to Rs 30. While in Your forwarding letter, You want the increase to be from Rs 5 to Rs 25. I am to enquire ~~this~~ whether you approve of the Principal's recommendation or wish to modify it ~~after two Hospitals Collect~~ meant in the way you have done.

(2) How the cost of chemicals is met now, whether the lecturer meets it from his allowance or the Hospitals is taken from the Med. School Laboratory, if the latter, why the allowance should be paid to the chemistry lecturer when the chemicals are utilised from the Med. School Laboratory.

(3) Instead of fixing Rs 300 or Rs 360 per Year on a/c of chemicals every Year - would it not be desirable to provide a separate

List of enclosures.
